### Project Interest

What is your interest in the Aicholtz Connector corridor? (check all that apply)

- I own a residence or private property in the Aicholtz Connector study area
- I own a business in the Aicholtz Connector study area
- I'm interested in business or other development opportunities in the Eastgate area
- I work/shop/dine in the Eastgate area
- I commute through the Eastgate area
- Other (Please explain briefly) \_\_\_\_\_

### Transportation Need

What traffic or safety problems do you see or experience in the Eastgate area?

- Congestion
- Dangerous curves, intersections, driveways
- Inefficient road network configuration
- Traffic signal location/timing issues
- Confusing/difficult access to businesses
- Inadequate turn lanes
- Other (Please explain briefly) \_\_\_\_\_

What do you feel are the advantages or disadvantages of an Aicholtz Road connection under I-275 relative to transportation in the Eastgate area? Be as specific as possible. \_\_\_\_\_

Other needs or problems you think are important for us to know about. \_\_\_\_\_

### Project Goals

Materials presented at today's Open House listed the following initial project goals for the Aicholtz Connector:

1. Improve access, safety and travel efficiency in the Eastgate area by providing for local trips off of mainline SR 32
2. Develop a transportation corridor that plans for future community and economic development and redevelopment opportunities along the Aicholtz Connector corridor
3. Preserve right-of-way for future pedestrian/bike and rail transit opportunities

Did we miss any goals? \_\_\_\_\_

What is your vision for the Aicholtz Connector corridor in the future? \_\_\_\_\_

### Possible Improvements

Possible improvements that may be considered for the Aicholtz Connector are listed below. Please rank their importance to you using **a scale of 1 to 5, with no interest = 1 and highest interest = 5.**

- |                                   |   |
|-----------------------------------|---|
| _____ Addition of curb and gutter | _____ Pedestrian/bike path                                      |
| _____ Paved shoulders             | _____ Improved stormwater management                            |
| _____ Turn lanes                  | _____ Greenspace preservation                                   |
| _____ Street lighting             | _____ Preservation of a corridor for future rail transit        |
| _____ Landscaping                 | _____ Future transit station at the Union Township Civic Center |

Are there other improvements you would like to see? \_\_\_\_\_

### Environmental and Community Resources

As this project develops, the project team will evaluate potential impacts to environmental and community resources.

Do you know of features in the study area that we should be aware of? \_\_\_\_\_

What environmental or community resources/issues are most important to you? \_\_\_\_\_

### Other Comments

Please provide below any additional comments you have about the project. \_\_\_\_\_
