

Where do you want to walk to?

Based on comments received from our first public involvement meeting, you want sidewalks! The Clermont County Transportation Improvement District now wants to ask you where you plan to travel.

We want to place sidewalks in the best location that will safely fulfill your needs.

Directions:

Place a GREEN dot (●) in the vicinity that you will begin your trip as a pedestrian.
Place a YELLOW dot (●) in the locations that you would like to have access to.

That's it! We will then analyze the trips that are planned and attempt to provide you with a best fit solution.
