

**GOAL:** To determine the available sewer capacity that can be used to serve future economic opportunities

Clermont  
County Sewer  
District Available  
Capacity

Village of  
Williamsburg  
Sewer District  
Available  
Capacity

Available  
Sewer Capacity  
for New  
Development

### Methodology:

**Determine Existing Conditions** of the Clermont County and Village of Williamsburg Sewer Districts

**Develop Sewer Treatment Options** by combining the available capacities of the current and planned systems

**Create Economic Development Growth and Equity Zones (EDGE)** or areas of potential economic opportunities

**Verify Results** by checking the sewer consumption densities versus the available sewer capacity

### Existing Conditions:

ITEM	CLERMONT COUNTY	VILLAGE OF WILLIAMSBURG
Current Capacity	7.2 MGD	0.5 MGD
Average Daily Consumption	4.3 MGD	0.3 MGD, 0.96 MGD Max
Planned Expansion	None	0.5 MGD
<b>Available Capacity</b>	<b>2.9 MGD</b>	<b>0.5 MGD</b>

MGD = Million Gallons Per Day
